

C-BOX VALUE

22 September 2014

Applicant: Inrim S.p.A.

Project Partners:

- **Capetti Elettronica S.r.l.**
- **Eurix**
- **Innovasystem**
- **Onleco**
- **Tecnolab del Lago Maggiore**

The project aims to create an assessment of the energy performance of the building envelope (*energy audit*).

- Activity measurement of thermal conductance (*in the field and in the laboratory*) for rewarding
- Service performance comparison between the project and built facing Public Administration, manufacturers, designers, Works Manager, material manufacturers, real estate buyers, etc.
- Creating technical specialized figures for measurements in the field
- Assessments of compatibility between field measurements, laboratory, and computing
- Providing customized and proper tools to perform appropriate measurements
- Laboratory activities and tests on materials (*single and multi-wall packages*)
- Properties testing of the building to accept or reject the artifact
