

## Technical Information

Nominal capacity	6.5A/h
Nominal voltage	3.6V
Maximum recommended continuous current	1,000mA
Maximum recommended continuous current	2,000mA
Working temperature	Operative: -55°C ÷ +85°C
Dimensions	<ul style="list-style-type: none"> <li>Diameter (max): 26.2mm</li> <li>Height (max): 50.5mm</li> </ul>
Weight	56g
Self-discharge rate	Less than 1% per year of storage
Cable lenght	70mm
Connections	0050375023 molex connector

### 6.5Ah - 3.6V type "C" internal lithium thionyl battery - High Power.

Normally used to power supply most of **WINECAP™** product line **probes** and **dataloggers**.

Battery life can change depending by operative conditions and system configuration.

In optimal operative conditions, battery life can reach up to 14 years.

The features shown may be subject to change without notice.
